

DELTA FIELDLAS LASER LINE MARKING PROJECTOR

The Delta FieldLAS Laser Line Marking Projector is a high-performance industrial laser system that creates bright, highly visible floor lines without the ongoing maintenance of traditional paint or floor tape. Featuring the latest diode laser technology, it projects crisp, adjustable lines over long distances, making it ideal for defining pedestrian walkways, separating forklift traffic and protecting high-risk zones. With an IP67-rated enclosure, 360° adjustable mounting and intelligent heating control, the FieldLAS is built to deliver reliable performance in demanding industrial environments.

PRODUCT FEATURES:

- Latest diode laser technology for brighter, sharper and more consistent line projection
- Adjustable line length and thickness to suit your application
- Long-lasting diode laser source for improved reliability
- Intelligent microprocessor control
- IP67-rated enclosure for harsh industrial environments
- Quick install - no downtime required
- 360° precision adjustable mounting bracket
- Integrated heating control for reliable operation

AVAILABLE IN:

- Colours: Green & Red
- Projection: Adjustable line length & thickness

APPLICATIONS:

- Dusty, dirty or wet environments where typical floor markings quickly deteriorate
- Cold storage and freezer facilities
- Pedestrian walkways and forklift traffic separation
- High-risk industrial work areas

LIMITATIONS & NOTES:

- Not suitable for applications in full sunlight
- Must be installed by a qualified electrician (when hard wiring)
- Each application must be customised to suit environment - no one size fits all
- Technical data sheet is available on request
