

SIGNUM PROJECTED SAFETY MARKING

The Signum marking projector is ideal for busy warehouses - they're designed to eliminate that ongoing marking maintenance cycle by projecting bright, permanent safety lines and warning signs onto the floor. Instead of constantly repainting, Signum projectors provide crisp, highly visible lines that stand up to forklifts, pallets, and busy operations without fading away. Signum helps reduce downtime, improve workplace safety, and keep operations running smoothly with a smarter, low-maintenance alternative to traditional line marking.

PRODUCT FEATURES:

- Customised GOBO designs for different applications
- Easily changeable or movable for future layout changes
- Will project onto any surface and will not wear out
- 50,000 hour life-span - will last longer but at reduced output
- 5 year warranty
- No downtime with installation
- IP65 protection rated - suitable for harsh industrial environments
- Suitable for high and low temperature applications
- Minimal maintenance required - fit & forget

LIMITATIONS AND NOTES:

- Not suitable for applications in full sunlight
- Must be installed by qualified electrician (when hard wiring)
- Each application must be customised to suit environment
- no one size fits all
- Technical data sheet available on request
